

SERVICES

Educational and Professional Consulting, Facilitation, and Training

WHO WE ARE

Seeds of Peace has over two decades of experience organizing and implementing dialogue and leadership development programs for youth and educators in communities in conflict across the globe.

Nearly 6,700 young leaders and educators from 27 countries have benefitted from our year-round conflict transformation programs. Learn more about our model, programs, and the impact of our work at www.seedsofpeace.org.

WHAT WE OFFER

We offer consulting, training, and facilitation services to bring our unique and proven methodologies to more schools, organizations, or any other groups looking to bridge divides or transform conflicts between or within communities.

CONSULTING

Seeds of Peace works with new or ongoing initiatives to help create and shape models that bridge divides and/or transform conflicts between and within communities. Much of our work centers around developing strategies to address the fundamental question, how do we work with the differences that exist in our community?

Our staff works with clients to design and tailor services for the specific needs of a new or ongoing venture that could use greater guidance or expertise. This could occur on an individual project basis or in developing a longer term relationship to meet the client's needs.

TRAINING

Seeds of Peace has developed a variety of facilitation and dialogue-based methodologies and tools that can be used in professional or educational environments.

Through creative trainings for staff, management, students, and educators focused on common facilitation techniques, communication skills, and general team or group building strategies. We work to develop trainings based on identified problem areas and creative strategies for growth. Some examples of types of trainings below.

- **Facilitation Training**- Train participants to facilitate dialogues of their own or to use facilitation techniques in daily or professional life, typically 1 to 3 days.
- **Communicating through Conflict Workshop**- This workshop will give you the tools to navigate conflict in ways that are helpful for you and those around you.
- **Beyond Sensitivity Training**- In this training we will provide tools to help your students, staff, or community to find ways to engage with each other respectfully and courageously.

FACILITATION

Since our founding, dialogue has been at the core of our mission. As a result, we have trained hundreds of facilitators from around the globe to facilitate group dialogues and team building for both youth and adults. Our facilitators reflect a wide variety of skill sets and experiences and can design and lead sessions specific to your needs in a single session or a multi-session dialogue series.

RESOURCES

In addition to the in-person training, facilitation, and consulting that we offer, Seeds is also able to provide resources for facilitating dialogues including a facilitation manual, and plans for dialogues that you can facilitate.
